

Speaking Task – Voice Recording – Individual Long Turn Globalization

You are taking part in an international youth conference, where students from all over the world come together to talk about issues of current social and political interest. One of the topics is globalization and its effect on the job market. You have been asked to speak about your personal views concerning this topic to a group of participants from other countries.

In your speech you should:

- describe the meaning of the term globalization as well as the term outsourcing
- discuss the positive and negative impact of a globalized market
- explain which “global skills” young people need in the globalized job market
- speculate about competition in the future job market due to globalization

Your speech should last about **4 to 5 minutes**. Pay attention to structure, grammar and wording. Give your presentation a meaningful structure. Record yourself with your mobile phone and hand in your file on MS Teams.
